Mrs S. Gallimore set this assignment for group 7b/5c1 - Science

Set on Mon 13 Apr

Due on Sun 26 Apr

Task description

This work is based on Elements, Atoms, Compounds and the Periodic Table.

The work should take you two weeks.

If you finish and need some more work, start preparing some revision material. This could include:

1. Flash cards: you could put key words on one side and definitions on the other. You could put eh symbol of elements and formulae of common compounds one side and the name on the reverse.
2. Concept maps/spider diagrams. These are a really useful revision tool as they link ideas together.
3. Make up some questions together with the answers. Get someone to test you.
4. Use BBC Bitesize, SENECA or keboodle. Year 7 & 8 will need to use the Activate 1 topic C1.2 and Activate 2 topic C2.1. Year 9 will need to use AQA GCSE Science modules C1 and C2.

Remember- the more you make of your time away from school, the more successful you will be in the future.

Other information

- This homework will take approximately 8 hours
- Mrs S. Gallimore would like you to hand in this homework online via Show My Homework
