

Emerson Park Academy
A SPECIALIST SPORTS COLLEGE

Moving on Guide for Year 11

2022-2023

Dear Year 11,

Now that you are well into your final year, it's time to think about life after Emerson Park Academy. Some of you will have a clear idea of your next steps, but for others, the moving on process may be a daunting prospect.

This guide has been produced to help you negotiate your way through the college transfer process, so please take the time to read it carefully. If you have any questions at all, you can find me in my teaching room in H6, or contact me using your school email account.

Yours Sincerely,

Ms C Hampton

If you have any further enquiries please contact:
champton@emersonparkacademy.org

Notes

What should I do now?

At this stage it's important to **research your options**. Even if you know what to do, it could be useful to explore other opportunities.

Complete a self-assessment. Think about your skills and qualities, strengths, and areas of weakness. Be honest!

Take a personality quiz, to find out a little more about who you are and what areas could suit your temperament and personality. You could take the buzz quiz here: <https://icould.com/> Remember, however, that it's only advice, you don't have to follow it!

Attend Open events. Visit as many places as you can, but check the website for any details regarding the visit. Also; there may be last minute changes.

Apply for your guaranteed place at one of the Havering colleges, (now under New City College, NCC). The application forms usually open in November and it's important to get your place secured. You have to apply by January

Look at your grades on **Go4Schools** and, if necessary, speak to your teachers about how to improve.

Qualifications Framework

The picture below shows you the qualifications framework. This will give you an idea about what level of study, or training you will be undertaking when you leave. Most pupils will be leaving with Level two qualifications, and will go on to do Level 3 qualifications. However, some pupils may start vocational qualifications at a level 1 or 2, or they may need to re-sit some GCSE exams, in English and Maths.

What options can I take?

Here are some popular options taken post 16 –

A Levels: Stands for Advanced Level. Students usually study 3 of these. There are a wide range of subjects to choose from, and they are studied across 2 years. They consist of more traditional methods of study and they are assessed through examination.

BTEC Qualifications: Students may take this if they are interested in a sector, job family or industry. It gives students a broader knowledge of a particular sector or industry. They are available in a range of sizes which are equivalent to one, two, or three A levels. They can be taken in combination with other qualifications.

Certificates: these enable you to develop transferable knowledge and skills through studying a particular industry or subject area. They are available in a range of subjects and can lead on to higher level study.

NVQs: provides students with skills to do a specific job and can be taken if you have a full-time job, or are on a course with a work placement.

Apprenticeships: An apprenticeship is a genuine job and under all circumstances an apprentice will be employed from day one. Apprenticeships combine practical training in a job with study.

The previous information (and information about other post 16 courses on offer), can be found on the following sites:
